Boston & Mass many laws, 50% split between

1760

---

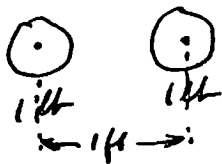

Catherine began an affair with  
Gregory ORLOV

C 1760

Henry Cavendish (1731-1810)

Cavendish experiment on Gravity

Used a torsion balance capable of suspending a large mass. Suspended 2 massive lead balls  $M_1$  &  $M_2$ . Then he brought an equally massive Ball  $M_3$  until it was close to  $M_2$ . This made  $M_2$  move slightly, thus causing the wire to be twisted somewhat

$$\frac{1. \quad 1.}{m_1 m_2} = 3 \text{ billionths of a lb.}$$

1760  
(1725-1794) MURRAY, James
